CITY SQUARE

HOT WORK CHECKLIST

If any of the items below are true, do not issue a permit.

- Hot work can be performed in a safer location.
- Alternate fastening methods are practical.
- This is a prohibited area, or is considered to be inherently unsafe.

If hot work is permitted, document the scope of the work to be performed:

Work performed by		Location
Description		
Date	Start time	End time

The person authorizing the hot work should verify that the following precautions are to be taken. Physical inspection of the site is required:

- ___ Combustibles eliminated or otherwise safeguarded within 35-ft (11-m)
- ___ Floor penetrations properly protected.
- ___ Required fire protection, detection, and alarms systems are functional.
- ___ Hot work equipment is in good repair.
- ___ Adequate portable extinguishing equipment provided.
- ___ Dedicated fire watch during the operation. (trained employee recommended)
- ___ Area monitored after completion for a period of one hour.

Indicate NA in space provided if not applicable.

The above location has been examined, adequate precautions are being taken, and permission is authorized for this work:

Signature	Title
Date	Time

The personnel who conducted the hot work should document the time when hot work was completed and the time that the monitoring period ended.

Time complete	Monitoring complete
Signature	

The permit should be returned to the authority that authorized the hot work for sign off:

Signature	Title
Date	Time
